

Dear FCC;

I would ask that you not "water down" the existing Indiana Telephone Privacy Act. Prior to the Indiana Telephone Privacy Act, I was receiving 15 to 20 calls each night from telephone sales people. As you are quite aware, this takes time away from my family. I have had to resort to "caller ID", a private line and "Privacy Manager" just to have peace each night.

Again I ask that you not federally mandate each states telephone service.

Respectfully,

Arthur Thomas Davis
